WORK EXPERIENCE

Unified Mentor

PRESENT

Frontend Developer

- Gained hands-on experience in modern frontend development, including advanced CSS, responsive design, animations, ES6 JavaScript, React, Redux, Vue, Vuex, Git/GitHub, Firebase, and Socket.IO. Contributed to building UI components, improving user experience, and working collaboratively on real project tasks.

TestnTel

2024 - 2025

Electrical Service Technician

- Performed appliance safety testing and assisted with electrical inspections under licensed supervision, ensuring compliance with New Zealand standards. Maintained service documentation, coordinated testing schedules, and supported on-site issue resolution, strengthening my attention to detail and technical problem-solving skills.

Twinnet Technologies

2022 - 2024

Web Developer

- Worked as a Web Development Intern, assisting in building responsive web pages, implementing UI features, and improving user experience. Gained hands-on experience with HTML, CSS, JavaScript, and modern frameworks while contributing to real project tasks and troubleshooting frontend issues.
